AIM OF THE AWARD

The ASSET project aims at awarding GPs or groups of GPs who have best included Science in Society (SiS) aspects in order to improve the quality of communication about epidemics and pandemics with their patients and with local communities.

More specifically:

The ASSET project will award health professionals working in the primary health sector (GPs or groups of GPs) who have implemented an activity or intervention to:

- improve the response of local communities or groups of people to deal with outbreaks of infectious diseases, such as influenza, measles, pertussis (whooping cough etc)
- promote immunizations for groups of children or adults for the prevention of diseases such as influenza, measles, rubella, pertussis (whooping cough etc).
- prevent the outbreak of infectious diseases among migrant/refugee populations
- improve primary health care services to better respond to outbreaks of infectious diseases

ASSET focuses on initiatives, concluded or on-going, implemented in the years 2015-2016 in any of the EU 28 Member States, the EEA countries (Iceland, Liechtenstein and Norway), Israel and Switzerland.
